

CADIANT VIDEO INTERVIEWING

Shorten Your Time to Hire

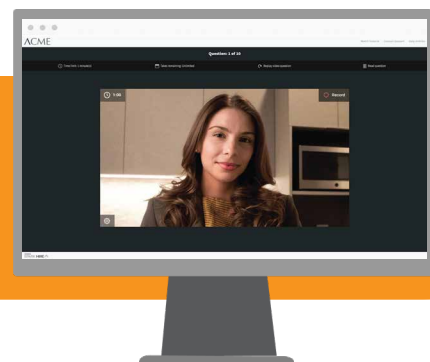

Video Interviews let you screen candidates at scale. Perfect for high-volume hiring. They reduce the number of in-person interviews needed, saving your team time and money. A cost-effective way to get better insights into candidates than telephone screenings.

We partner with Spark Hire, the leading interview platform. This partnership gives you the best video interviewing tool available. It's easy to add to your current ATS and simple for hiring teams and candidates to use.

Pre-recorded and live videos are available for both salary and hourly positions.

Pre-recorded or one-way interviews let candidates record responses to pre-selected interview questions. Candidates complete their interviews at their convenience. Hiring teams can review the video at any time.

SCREEN CANDIDATES FASTER
MAKE BETTER HIRES FASTER

CADIENT + SPARK HIRE = SIMPLE VIDEO INTERVIEWING

- The Cadient - Spark Hire partnership creates a seamless experience for your hiring team and candidates.
- Ready to interview? Send links to your candidates from within the Cadient Solution. Candidates use the link to access the video interview platform. They can use any device, including mobile.
- Custom branding is available. Add logos, colors, pictures, videos, and more.
- Teams are notified about completed interviews from Spark Hire. The videos are available for viewing at any time within the Cadient solution.

SHORTEN YOUR HIRING PROCESS & SAVE MONEY WITH VIDEO INTERVIEWS

- Screen more candidates more efficiently
- Interview candidates remotely
- Increase collaboration between team members
- Standardize the interview process, increase fairness and equity
- Improve your candidate experience
- Reduce candidate no-shows

Live video interviews allow your hiring teams to connect face-to-face with their candidates. Live interviews are automatically recorded and available for review when convenient.
