

Job Posting: DBA - Microsoft SQL Server

ABOUT

Cadient is a high-growth SaaS Talent Acquisition software provider focused exclusively on providing the industry's leading end-to-end hiring solution for distributed workforces. Built specifically for the field, our intuitive and flexible platform meets the complex needs of high-volume, hourly hiring and provides managers with a constant pipeline of quality candidates.

We are looking for a SQL Database Administrator to join our team in the Noida development center. This position will be responsible for the implementation, configuration, maintenance, and performance of critical SQL Server RDBMS systems to ensure the availability and consistent performance of our corporate applications. This is a "hands-on" position requiring solid technical skills, as well as excellent interpersonal and communication skills. We are a fast-growing US-based product company with a fun environment, come, and grow your career with us!

JOB RESPONSIBILITIES:

- Manage SQL Server databases through multiple product lifecycle environments, from development to mission-critical production systems.
- Configure and maintain clustered database servers and processes, including monitoring system health and performance, to ensure high levels of performance and security.
- Apply data modeling techniques to ensure development and implementation support efforts meet integration and performance expectations
- Independently analyze, solve, and correct issues in real time, providing problem resolution.
- Refine and automate regular processes, track issues, and document changes
- Assist developers with complex query tuning and schema refinement.
- Provide 24x7 support for critical production systems.
- Perform scheduled maintenance and support release deployment activities.
- Share domain and technical expertise, providing technical mentorship and cross-training to other peers and team members.

SKILLS REQUIRED:

- 8+ years of experience as a SQL Server DBA with SQL 2008/2014 and above
- 5 years of experience with Performance Tuning and Optimization (PTO)
- 5 years of experience with backups, restore, and recovery models
- 7 years of experience in High Availability (HA) and Disaster Recovery (DR) for SQL Server
- 8 years of experience with Windows server, including Active Directory
- Sense of ownership and pride in your performance and its impact on the company's success
- Critical thinking and problem-solving skills
- Good time-management skills
- Great interpersonal and communication skills

GOOD TO HAVE:

Exposure on SSIS/SSAS

EXPERIENCE:

Minimum 8 years of relevant experience and above.

EDUCATION:

BTech or MTech in Computer Science, MCA with at least 60% throughout academics.

PAY & PERKS:

We offer a full slate of benefits, including competitive salaries and other benefits like group medical insurance, group term, cab facilities, and accidental coverage.
